# **Core Strategy Constraints and Soundness Tests**

The Core Strategy and subsequent development plan documents are required to be prepared in accordance with **legislative requirements** and to meet three main **tests of soundness**. This will be assessed through the examination process by an independent Planning Inspector.

# **Legal Compliance**

This includes:

- complying with Regulations and other documents including the Local Development Scheme (timetable for the LDF) and the Statement of Community Involvement;
- regard to the Sustainable Community Strategy;
- subject to a Sustainability Appraisal;
- conformity with the South East Plan.

#### **Tests of Soundness**

There are three main tests of soundness.

### a) Justified

- <u>Participation</u> has there been effective engagement?
- Research and fact finding is the content of the DPD justified by the evidence? Is it up to date?
- <u>Alternatives</u> can it be shown that the Local Planning Authority's chosen approach is the most appropriate given the reasonable alternatives? This should be reflected in the sustainability appraisal.

## b) Effective

- <u>Deliverable</u> This includes sound infrastructure delivery planning; having no regulatory or national barriers to delivery; delivery partners signed up to it; and coherence with strategies of neighbouring authorities
- <u>Flexible</u> is the Plan flexible enough to respond to unexpected changes in circumstances?
- Able to be monitored does the Plan contain targets and milestones that relate to delivery of the policies? Needs to be clear how these are to be measured.

# c) Consistent with national policy

 The DPD should be consistent with national policy. Where there is a departure LPAs must provide clear and convincing reasoning to justify their approach.
