Dear Matthew,

Further to my previous letter from 24th October 2022 (attached) I am writing regarding the Hippodrome planning application BH2022/02444.

I was pleased to see that, after additional consultation, Matsim have amended their plans to take into account feedback regarding aspects which will increase flexibility of large performance space in the future. It's welcome to see a developer work in collaboration with campaigners and historic preservation organisations in this way and on that basis, I am further encouraged to support Matsim's application.

Yours sincerely, Caroline
