

2011 Planning Committee – Additional Representations

Page	Site Address	Application No.	Comment
70	F4 4 Montpellier Terrace	BH2011/03398	Additional light survey of rear first floor flat window undertaken by EAS Ltd. It calculates a 23% loss of daylight to this window post development. This is broadly identical to that calculated in the report (25%) and does not alter the conclusions/recommendation of the report.

NB. Representations received after midday the Friday before the date of the Committee meeting will not be reported (Sub-Committee resolution of 23 February 2005).
