

DEPUTATION(S)

The following deputation was received by the deadline from members of the public and will be considered at Item 20 (c) on the agenda. The Deputee may provide up to 2 sides of A4 printed material in support of their deputation and may speak for up to a maximum of 5 minutes in support thereof. The Chair may give a brief response prior to requesting that the Committee note and receive the content of the deputation.

Deputation

Medina House Planning Brief

The following deputation was notified in advance of the meeting by Mrs T Bahcheli on behalf of local residents.

The deputation supports the planning brief in broad terms. It will express support for the principle to retain and convert Medina House, and that any new building will not overpower Medina House.

It will express support for the recognition of the part Medina House plays in the character and appearance of the conservation area, as well as the qualities of the building itself.

It will support the work undertaken by the City Council and Cluttons on proving the viability of a scheme that maintains Medina House.

We will support the recognition given the the protection of neighbour amenity at the site.

We raise the question of the policy context, and the replacement of Local Plan policies with City Plan policies, as and when they are adopted. The brief relies on detailed Local Plan policies at present.”
