

**WRITTEN QUESTIONS**

**(i) Old Shoreham Road cycle lane- Linda Freedman**

*'Prior to the installation of the cycle lane in Old Shoreham Road, Hove the houses and gardens south of the road did not experience flooding. Since the cycle lane was installed the gardens, garages and homes are impacted by flooding any time there is substantial rainfall. What does the Council intend to do to stop this happening? How will the Council compensate those householders who have been impacted by the design flaws apparent in the cycle lane?'*
