

Our journey ahead...

Where will care and support services be in the next five years?

1. Signposting

Information and advice to enable people to look after themselves and each other, and get the right help at the right time.

2. Stronger communities

Help people to build support networks by working in partnership with local health & community services.

3. Getting people on the right track

Preventative services that help people stay independent for longer, and support them to recover after illness.

4. Citizens will be in control of their own care

When people do need extra care and support, services will be personalised, and more joined-up around individual needs.
