RECORD OF CHILDREN & YOUNG PEOPLE COMMITTEE DECISION

SUBJECT: PUBLIC HEALTH AND SCHOOLS
PROGRAMME

AUTHOR: LYDIE LAWRENCE

THE DECISION

RESOLVED - That the report be endorsed by the Children and Young People's Committee.

REASON FOR THE DECISION

Following discussions at the Health and Well Being Board that the report be referred to Children & Young People Committee in order that Committee may endorse the recommendations set out in the report.

DETAILS OF ANY ALTERNATIVE OPTIONS

The Public Health Schools' Programme takes a comprehensive approach to health and wellbeing. The programme will provide a whole school community approach to health improvement for pupils, staff and parents. This will contribute to pupils' attainment and achievement and support the implementation of the Early Help Strategy.

Schools will be provided with Annual School Health Profiles with information about their pupils' demographics as well as health and lifestyles issues and inequalities:

- * Immunisation profile - MMR (5yr olds), HPV (secondary schools)
- * Healthy weight prevalence - primary school entry and leaving
- * Lifestyle profile- smoking, alcohol /drug use, physical activity
- * Mental health - self-reported mental wellbeing, self harm; domestic abuse, emotional wellbeing
- * Sexual health - sexual activity, teenage pregnancy

Note: In the event of some school-level datasets being too small and risking identification of individuals, relevant data will not be shown.

Schools will identify a number of issues that they wish to focus on based in part on the issues identified in their School Health Profile. Schools will be offered support in the development of relevant school policies such as drug and alcohol, healthy weight (school meals, vending machines), tobacco control and other health and wellbeing related policies. Schools will also be offered support in the development of school resilience and emergency management plans. There will be opportunities for schools to sign up to parental contracts for parents not to provide alcohol to their children.

Health and wellbeing for pupils and students. Based on the issues identified

in the School Health Profile, the work will incorporate the current healthy settings work and the public health initiatives already in place, for example healthy diet and nutrition, physical activity, substance misuse, smoking cessation, sexual health, emotional health and wellbeing - including mindfulness and suicide prevention, injuries and accident prevention and targeted work aimed at reducing inequalities in health. The proposed initiatives will enhance the Personal Social, Health and Economics (PSHE) education programme. There will also be scope for support to improve vaccine uptake in this programme

Staff and parent initiatives. A number of public health programmes will be offered to staff and parents: smoking cessation, drug and alcohol awareness, mental health and wellbeing promotion, Change4Life and Smart Restart (a national programme offered at the start of the new school year to establish healthy habits), and parenting initiatives.

Reducing inequalities. Some schools may be offered additional support including, though leisure and tourism and public health departments, easier access to out of school activities in culture and leisure.
