

The Kingscliffe Society's**List of the benefits to the residents, business & guest houses of the St James's Street area of moving PVP down onto Madeira Drive for 2019**

- 1 No on street public toilets; causing offence to all, with spillage left festering for days after the weekend event.
- 2 No blocking of the 16 residential streets for the total weekend, now extending to the preceding Friday and following Monday and on wards.
- 3 No restrictions on the 4,000 +'s residents, their movements for the total weekend which includes the preceding Friday & following Monday and on wards.
- 4 No need for the residents,(those that can afford it) to move away for the weekend at the most expensive time of the year.
- 5 Residents who have to remain in their homes suffer crime & disorder, noise and disturbance from the loud party goers and licensed venues, would not be affected.
- 6 Residents who are house bound and require daily social services would not be affected.
- 7 Residents with young families who suffer loss of sleep for the whole of the extended weekend Friday through to Tuesday
- 8 Residents who are shift workers would not be affected by lack of sleep for the whole extended weekend
- 9 Residents would not have to suffer abuse of their property with damage to the building fabric like broken windows & rain water pipes, garden walls and gates etc, would not have the very expense repair bills to pay.
- 10 Residents would not have to suffer abuse to their homes from persons urinating & defecating on to and even through letter boxes and having to clean up.
- 11 Residents would not have to suffer from persons using their front doorways, steeps & gardens to inject drugs and simply leave the needles behind for the resident to dispose of.
- 12 Residents would not have to suffer from persons smoking drugs in their doorways with the offensive, health risk smoke invading the interior where also children reside.
- 13 Residents and their families plus friends would not have to suffer the restriction imposed on them by Pride, they can go about their normal life
- 14 Businesses not a party to the PVP would not lose a whole weekends trade at a prime time of the year.
- 15 Businesses not a party to the PVP and their clients would not have to suffer the restriction imposed on them by Pride
- 16 Residents & Businesses would not have to suffer restricted bus & taxi services
- 17 Fire, Police & Ambulance Services would not be restricted therefore operating as normal.
- 18 Buses would be able to serve there full routes ie along the coast to Eastbourne & Worthing and inland to Rustington and on to Arundel
- 19 Side street Guest Houses not a party to the PVP could possible operate as normal.
- 20 The spread from the contaminated (stick) pavements would not have to be endured from being trodden into all the local shops (many of them food), restaurants, guest housed and homes for up to a week.

Rational

All of the above items show some of the benefits of moving the PVP down onto Madeira Drive, there are many others that are personal to the residents and business but moreover these points will eliminate most residents & business fear and concerns over the PVP's extended weekend event being simply imposed on them each & every Year.
