I understand you're the case officer for the Nile House rooftop application. I am writing to support the application and ask that it comes to planning committee so that it can be properly discussed.

The building in question requires renovation to bring it up to modern standards and the only way that is possible is to incorporate an enabling development. The applicant has worked hard to incorporate the views 2 of the council's Heritage team and has come up with a design that is very sympathetic to the conservation area. It will improve the availability of high quality office space in the city centre and support the local economy.
