

**NOTICE OF MOTION****LABOUR GROUP****CROSS CHANNEL LINK**

This Council:

1. Notes that at various times there has been a cross channel ferry service to France from the City, most recently in 1992 from the Marina;
2. That such a service based not on car use, but bike and foot/wheelchair passengers have the potential to increase tourism, create employment and be very popular with residents;

Council therefore requests the Tourism, Equalities, Communities & Culture Committee to call for an officer report to explore options for the re-establishment of a cross channel passenger service from the Marina including:

- a. Whether such a service could be publicly run and operated or run as a cooperative or joint venture
- b. Revenue raising potential of such a service
- c. Transport links to the railway station(s) and bus routes

Proposed by: Cllr Childs

Seconded by: Cllr Evans
