First floor plans

Please note that the location of all balconies, on each floor, has been agreed under the previous application BH2020/03745.

The proposal would remove the requirement for additional screening and the balconies would therefore have balustrades of 1.1m in height with clear glazing.

Key Considerations in the Application

- Impact on neighbouring amenity
- Standard of accommodation to future occupiers of the development

Conclusion and Planning Balance

- The separation distances between the western balconies and neighbouring properties are considered sufficient and comparable with those to the east of the development.
- This combined with the line of trees between the development and Saffron Gate will ensure acceptable privacy levels.
- A condition has been sought to increase the balustrade to unit 9 to 1.3m in addition to obscured glazing to protect residents of Wilbury Lodge.
- Any significant increase in height to other balconies would impact the standard of accommodation for future residents of the units in question within phase 1.
- The recommendation is therefore to Approve.
