# Key Considerations in the Application

---

- Principle of the development
- Design and appearance
- Impact upon neighbouring amenity
- Standard of accommodation
- Sustainable transport

Brighton & Hove  
City Council

# Conclusion and Planning Balance

---

- The proposal is considered to be acceptable in principle. Residential use is established in the area, and there are similar 'back-land' developments to the south on Boundary Road.
- The existing garage is already effectively set in its own plot and so the proposal would not set a precedent for back-land development on St Leonards Road.
- No objection is raised to the proposed design.
- No significant harm to neighbouring amenity is anticipated. Potential mutual overlooking would be obstructed by the proposed 1.8m timber fence.
- The removal of the existing vehicular access route would remove a source of noise disturbance for the St Leonards Road neighbours.
- The proposed dwelling complies with the Nationally Described Space Standards and is considered to provide an acceptable standard of accommodation.
- No concerns are held regarding transport impact.
- Approval is therefore recommended, subject to conditions.
