

## Self Directed Support Development Framework

Develop **Terms of Reference** for the Partnership Board:

- Articulate and promote clear **Vision** outlined within the SDS Strategy
- Identify Board and Work Group **Objectives** to be achieved within lifetime of the Partnership Board (– clearly related to the work streams)
- Agree and oversee delivery of Effective **Blueprint and Implementation Plan to fulfil SDS Strategy.**
- Performance Management of the SDS programme and LAA/CSCI targets
- **Evaluation and Monitoring** of the SDS programme
- **Strategic Champions** for SDS across the City

#### **Key Roles for the SDS Partnership Board:**

- Adopt and monitor Blueprint – ensuring all work streams have clear objectives and timescales/milestones.
- Act as strategic Champions for SDS, and communicate the key messages for SDS to relevant networks, partnerships agencies and the wider community
- Ensure that the progress of the SDS strategy is shared and actioned across all stake holders – e.g. that actions which need to be progressed by the PCT, are taken to the appropriate forum for progression, and reported back to the SDS Partnership Board
- Ensure that the principle of Equalities are upheld within the development of SDS, including the development of an Equality Impact Assessment
- Ensure that developments are Evaluated to identify benefits and areas for improvement
- Ensure that the work of the Learning Disabilities Individual Budget pilot is integrated into the overall SDS development
- Financial Planning, identify financial implications and ensure the principles of Best Value for Money.
- Development of targets and timetable

**Self Directed Support Draft Vision** – for SDS Partnership Board to develop

“All eligible Adult Social Care service users will be able to access a Personal Budget to purchase a range of support for their needs, and receive the level of support they wish in order to manage their self directed support options.” **By April 2011**

**1<sup>st</sup> Priority** - effective local systems which will enable SDS to be a reality for service users, and central to this commitment is the development of

a locally created and tested Resource Allocation System (**SDS Systems Group**)

**Milestones – 2008/09:**

- Establish Group + additional Sub Groups (Risk Enablement + Performance Management)
- August'08 implementation of pilot Overview Assessment to collect data for RAS programme
- Sept'08 establish SDS System Sub Group
- Oct'08 ensure that FACE have received all relevant data for RAS
- Dec'08 start testing RAS with ASC assessment teams
- March'09 receive outcome of testing RAS
- Reformation of current ASC systems to enable SDS to be embedded within ASC procedures – Financial Systems; and Assessment.
- Development of monitoring systems to ensure PI returns and evaluation of on going systems
- Establish Issues Log
- Self Assessment development

**Milestones – 2009/10:**

- April'09 implement new FACE Overview Assessment across all ASC assessment teams

**Risk Enablement and Managing Choice Sub Group:**

Development of a decision making process to work with service users to make choices in order to achieve their individual outcomes, and manage potential risks.

**Milestones – 2008/09**

- Establish Sub Group
- Development of a Risk and Choice Statement, which incorporates Safeguarding Adults, Child Protection, and Mental Capacity – in order to balance professional and service users responsibilities, and a consistent approaches to risk across SDS development
- Development of protocols which can be used across sectors, in order to manage potential risks
- Managing Money policy

**Performance Management Sub Group:**

Links with LAA + National Indicator Set performance framework; development of outcome measures regarding the service users journey within new SDS systems; and Evaluation of SDS development, including users and stakeholders perspectives

**2<sup>nd</sup> Priority – Information and Support Group** There will be a sufficient range of Information, Support, Advocacy, and Brokerage to enable ALL service users, and/or their carers, to take control - from assessment to managing their Personal Budgets

**Milestones – 2008/09:**

- Establish Group
- Continue with the Direct Payments programme to further develop the support service users will receive in order to effectively access DP's, from information to managing a DP.
- Development of a range of training programmes to ensure all relevant Council and partner agencies are fully trained/enabled to deliver choice and control to users.
- Exploration of the range of brokerage functions which need to be accessible to service users
- Ensure service user journey is accessible for all service users

**Milestones – 2009/10:**

- Delivery of a comprehensive training programme for all relevant staff

**3<sup>rd</sup> Priority – Commissioning and Contracting Group** There will be a genuine range of choices/services/opportunities available for service users to make informed decision for spending their Personal Budget

**Milestones – 2008/09:**

- Establish Group
- Continue with the development programme for Direct Payments, including increasing accessibility to employ Personal Assistants – enabling service users to choose who can support their individual needs and personal aspirations to improve their quality of life.
- Engage with Commissioners regarding SDS principles
- Analysis of current personal budget users spending – what are people buying who are self funded, what is in the market place already
- Unit costs, creation of pricing mechanisms.
- Financial planning for the shift from provided care to SDS option, with an explicit awareness of the need to recognise the costs of running dual systems while shifting to SDS.

**Milestone – 2009/10:**

- SDS as a clear priority within the Community Strategy, for the LSP and PSB.
- Consult with service users about the types of service they want to purchase
- Work in partnership with Providers to ensure they can deliver what individual want.

**Milestones – 2010/11:**

- Commissioning plans and practices in place to enable individuals to purchase rather than providers to be contracted to support homogenous groups of service users.
- Provision of a “menu” or “catalogue” of services/opportunities to support service users with their purchasing power – possible Shop4Support approach.
- Development of a plan to consider the feasibility of SDS across broader public service – health; leisure; education...

**All service users accessing RAS and PBs****Range of support options for service users****SDS compatible systems/procedures/policies****Fit for purpose workforce**

A self sustaining stakeholder/cross sector governance structure for SDS, with a continuing investment plan for the future
