TEN YEAR PERCENTAGE INCREASES PER AREA

NATIONAL AVERAGE	EAST ANGLIA	MIDLANDS	NORTH	SOUTH	SOUTH WEST	SCOTLAND	WALES
63.14%	61.78%	63.58%	63.48%	60.75%	66.46%	58.56%	65.63%

Figures in green boxes in these columns indicate a fare level equal to or better than Area Averages  
 Council name or Figures in red indicate a fare level lower than Area Averages

All figures updated as of today 15th April  
 All tables are sorted by the Tariff 1 two mile fare as are the figures used for comparison on this and other sheets  
 See sheet two for the Southern area figures since 1999  
 See sheet three for your local area price comparisons  
 See sheet four for the Southern fare table as extracted from the national table  
 The price of Diesel in May 1999 when we first started the league tables was 73.00 pence per litre and is now 113.25pence per litre a nine year rise of 55.14% which has now overtaken the average fare rises in a number of areas including Brighton  
 Brighton's formula for fare increases appears to have held the financial position of the trade static for two three year periods during the last ten years and this has led to an identifiable decline in basic income which the trade now seek to address  
 The current application would raise the Tariff 1 - 2 mile fare to £6.00 and move the percentage increase over the period since 1999 from 46.60% to 57.07%  
 Which is still behind the National and Southern Area averages.
