Report based on final data

Contents

Introduction

Notes, comparator groups, sources and references

1A - Social care-related quality of life score, 2013-14

1B - The proportion of people who use services who have control over their daily life, expressed as a percentage, 2013-14

1C part 1 - Number of adults, older people and carers receiving self-directed support in the year to 31 March as a percentage of all clients receiving community based services and carers receiving carer specific services, 2013-14

1C part 2 - Number of adults, older people and carers receiving self-directed support via a direct payment in the year to 31 March as a percentage of all clients receiving community based services and carers receiving carer specific services, 2013-14

1D - Carer-reported quality of life score, 2013-14 (no data available)

1E - The proportion of adults with a learning disability in paid employment, expressed as a percentage, 2013-14

1F - The proportion of adults in contact with secondary mental health services in paid employment, expressed as a percentage, 2013-14

1G - The proportion of adults with learning disabilities who live in their own home or with family, expressed as a percentage, 2013-14

1H - The proportion of adults in contact with secondary mental health services living independently, with or without support, expressed as a percentage, 2013-14

1I part 1 - The proportion of people who use services who reported that they had as much social contact as they would like, expressed as a percentage, 2013-14

1I part 2 - The proportion of carers who reported that they had as much social contact as they like, expressed as a percentage, 2013-14 (no data available)

2A part 1 - The proportion of permanent admissions to residential and nursing care homes for younger adults (18-64), per 100,000 population, 2013-14

2A part 2 - The proportion of permanent admissions to residential and nursing care homes for older people (65 and over), per 100,000 population, 2013-14

2B part 1 - The proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services, expressed as a percentage, 2013-14

2B part 2 - The proportion of older people (65 and over) who were offered reablement services following discharge from hospital, expressed as a percentage, 2013-14

2C part 1 - Delayed transfers of care from hospital, per 100,000 population, 2013-14

2C part 2 - Delayed transfers of care from hospital which are attributable to adult social care, per 100,000 population, 2013-14

3A - Percentage of adults using services who are satisfied with the care and support they receive, 2013-14

3B - Overall satisfaction of carers with social services, expressed as a percentage, 2013-14 (no data available)

3C - The proportion of carers who report that they have been included or consulted in discussion about the person they care for, expressed as a percentage, 2013-14 (no data available)

3D part 1 - The proportion of people who use services who find it easy to find information about services, expressed as a percentage, 2013-14

ASCOF Comparator Report 2013-14 Brighton and Hove (816)

3D part 2 - The proportion of carers who find it easy to find information about services, expressed as a percentage, 2013-14 (no data available)

4A - The proportion of people who use services who feel safe, expressed as a percentage, 2013-14

4B - The proportion of people who use services who say that those services have made them feel safe and secure, expressed as a percentage, 2013-14

Appendix 1 - Detailed numerators and denominators, data sources and NASCIS guidance.

Introduction

This report is one of a range of standard reports available from the National Adult Social Care Intelligence Service (NASCIS). The report shows measures from the Adult Social Care Outcomes Framework (ASCOF) for Brighton and Hove (816) in the context of data for 15 comparable councils.

Comparable councils are selected according to the Chartered Institute of Public Finance and Accountancy (CIPFA) Nearest Neighbour Model, which identifies similarities between authorities based upon a range of socio-economic indicators. Further information about the Nearest Neighbour Model can be found on the CIPFA web site at:

<http://www.cipfastats.net/resources/nearestneighbours>

Notes

Comparator Groups

The comparator group average is based on this council plus the 15 comparator councils. Comparator groups are not available for City of London (714) and Isles of Scilly (906).

Sources

This report is based on final 2013-14 data. Chart sources include:

Adult Social Care Combined Activity Return (ASC-CAR) - charts 1E, 1G, 2A, 2B

Personal Social Services Adult Social Care Survey (Adult Social Care Survey (ASCS))
- charts 1A, 1B, 1I part1, 3A, 3D, 4A, 4B

Delayed Transfers of Care (DToC) - chart 2C

Hospital Episode Statistics (HES) - chart 2B

Mental Health Minimum Data Set (MHMDS) - charts 1F, 1H

Mid-year population estimates, Office for National Statistics (ONS) - charts 2A, 2C

Referrals, Assessments and Packages of Care (RAP) - chart 1C

Carers Survey

Measures 1D, 1I part2, 3B, 3C and 3D part2 are based solely on the Carer's survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data are available for these measures for 2013-14, 2011-12 and 2010-11.

1H	53.0	57.2	60.8
1I1	51.1	44.7	44.5
2A1	10.5	15.5	14.4
2A2	723.3	758.8	650.6
2B1	80.1	82.9	82.5
2B2	7.1	3.5	3.3
2C1	6.9	10.0	9.6
2C2	1.2	3.6	3.1
3A	68.2	66.2	64.8
3D1	74.7	75.2	74.5
4A	75.5	66.8	66.0
4B	84.5	79.2	79.1

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

1A - Social care related quality of life score, 2013-14

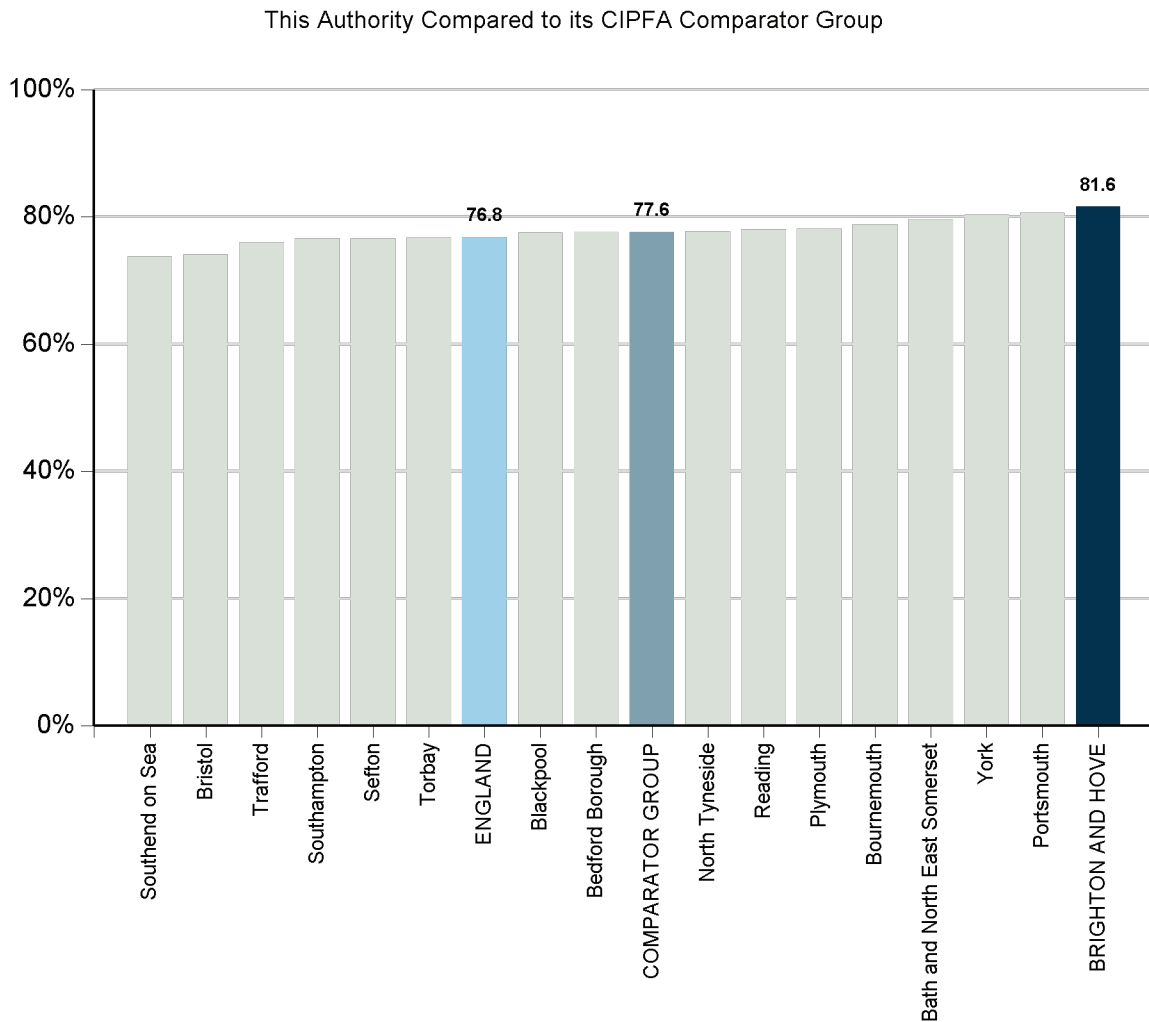

This measure gives an overarching view of quality of life of users based on outcome domains of social care related to quality of life.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS.
 Data for 2013-14 is based on final data.

1B - The proportion of people who use services who have control over their daily life, expressed as a percentage, 2013-14

Control is one of the key outcomes derived from the policy of personalisation. This measure is a means of determining whether that outcome is being achieved.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and Denominator: ASCS.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1C part 1 - Number of adults, older people and carers receiving self-directed support in the year to 31 March as a percentage of all clients receiving community based services and carers receiving carer specific services, 2013-14

This Authority Compared to its CIPFA Comparator Group

Research has indicated that personal budgets have a positive effect in terms of impact on wellbeing, increased choice and control, cost implications and improving outcomes.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: RAP.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1C part 2 - Number of adults, older people and carers receiving self-directed support via a direct payment in the year to 31 March as a percentage of all clients receiving community based services and carers receiving carer specific services, 2013-14

This Authority Compared to its CIPFA Comparator Group

Studies have shown that direct payments make people happier with the services they receive and are the purest form of personalisation.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: RAP.

Data for 2013-14 is based on final data.

1D - Carer-reported quality of life score, 2013-14

This Authority Compared to its CIPFA Comparator Group

No Data Available

Outcome measure 1D is not calculated for 2013-14, as it is based solely on the Carer's survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data are available for this measure for 2013-14, 2011-12 and 2010-11.

This measure gives an overarching view of the quality of life of carers based on outcomes identified through research by the Personal Social Services Research Unit. This is the only current measure related to quality of life for carers available, and supports a number of the most important outcomes identified by carers themselves to which adult social care contributes.

Numerator and denominator: CS.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1E - Adults with a learning disability in paid employment, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

There is a strong link between employment and enhanced quality of life, including evidenced benefits for health and wellbeing and financial benefits.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASC-CAR.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1F - Adults in contact with secondary mental health services in paid employment, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

Employment outcomes are a predictor of quality of life, and are indicative of whether care and support is personalised. Employment is a wider determinant of health and social inequalities.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources - Numerator and denominator: MHMDS.

Please note: National totals are not the exact sum of all councils' data. In some instances it is not possible to attribute a service user to a council but these service users still form part of the national total.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1G - Adults with a learning disability who live in their own home or with family, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

The nature of accommodation for people with a learning disability has a strong impact on their safety and overall quality of life and the risk of social exclusion.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASC-CAR.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

1H - Adults in contact with secondary mental health services living independently, with or without support, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

Stable and appropriate accommodation is closely linked to improving safety and reducing the risk of social exclusion.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources - Numerator and denominator: MHMDS.

Please note: National totals are not the exact sum of every councils data. In some instances it is not possible to attribute a service user to a council but these service users still form part of the national total.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

11 part 1 - The proportion of people who use services who reported that they had as much social contact as they would like, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

There is a link between loneliness and poor mental and physical health. Self-reported levels of social contact act as an indicator of social isolation.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS

Data for 2013-14 is based on final data.

ASCOF Comparator Report 2013-14 Brighton and Hove (816)

1I part 2 - The proportion of carers who reported that they had as much social contact as they would like, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

No Data Available

Outcome measure 1I part 2 is not calculated for 2013-14, as it is solely based on the Carers survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data is available for this measure for 2013-14, 2011-12 and 2010-11.

There is a link between loneliness and poor mental and physical health. Self-reported levels of social contact act as an indicator of social isolation.

2A part 1- Permanent admissions to residential and nursing care homes for younger adults (18-64), per 100,000 population, 2013-14

This Authority Compared to its CIPFA Comparator Group

Avoiding permanent placements in residential and nursing care homes is a good indication of delaying dependency. Research suggests where possible people prefer to stay in their own home rather than move into residential care.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator: ASC-CAR.

Denominator: ONS 2013 mid-year population estimates (aged 18-64).

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

2A part 2 - Permanent admissions to residential and nursing care homes for older people (65 and over), per 100,000 population, 2013-14

This Authority Compared to its CIPFA Comparator Group

Avoiding permanent placements in residential and nursing care homes is a good indication of delaying dependency. Research suggests where possible people prefer to stay in their own home rather than move into residential care.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator: ASC-CAR.

Denominator: ONS 2013 mid-year population estimates (65 and over).

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

2B part 1 - Older people (65 and over) who were still at home 91 days after discharge from hospital into reablement/rehabilitation services, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

Remaining living at home 91 days following discharge is the key outcome for many people using reablement services.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and Denominator: ASC-CAR.

Data for 2013-14 is based on final data.

2B part 2 - Older people (65 and over) who were offered reablement services following discharge from hospital, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

This measure indicates the volume of reablement offered.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator: ASC-CAR.

Denominator: HES.

Data for 2013-14 is based on final data.

2C part 1 - Delayed transfers of care from hospital, per 100,000 population, 2013-14

This Authority Compared to its CIPFA Comparator Group

The impact of hospital services and community based care in facilitating timely and appropriate transfer from all hospitals for all adults.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator: DToC.

Denominator: ONS 2013 mid-year population estimates (18 and over).

Data for 2013-14 is based on final data.

2C part 2 - Delayed transfers of care from hospital which are attributable to adult social care, per 100,000 population, 2013-14

This Authority Compared to its CIPFA Comparator Group

The impact of hospital services (acute, mental health and non acute) and community based care in facilitating timely and appropriate transfer from all hospitals for all adults.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator: DToC.

Denominator: ONS 2013 mid-year population estimates (18 and over).

Data for 2013-14 is based on final data.

3A - Percentage of adults using services who are satisfied with the care and support they receive, 2013-14

The satisfaction with services of people using adult social care is directly linked to a positive experience of care and support. Analysis of surveys suggests that reported satisfaction with services is a good predictor of the overall experience of services and quality.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS.

Data for 2013-14 is based on final data.

3B - Overall satisfaction of carers with social services, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

No Data Available

Outcome measure 3B is not calculated for 2013-14, as it is solely based on the Carers survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data is available for this measure for 2013-14, 2011-12 and 2010-11.

The satisfaction with services of carers of people using adult social care is directly linked to a positive experience of care and support. Analysis of user surveys suggests that reported satisfaction with services is a good predictor of the overall experience of services and quality.

Sources

Numerator and denominator: CS.

3C - The proportion of carers who report that they have been included or consulted in discussion about the person they care for, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

No Data Available

Outcome measure 3C is not calculated for 2013-14, as it is solely based on the Carers survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data is available for this measure for 2013-14, 2011-12 and 2010-11.

Carers should be respected as equal partners in service design for those individuals for whom they care – this improves outcomes both for the cared for person and the carer, reducing the chance of breakdown in care. This measure reflects the experience of carers in how they have been consulted by both the NHS and social care.

Sources

Numerator and denominator: CS.

3D part 1 - The proportion of people who use services who find it easy to find information about services, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

This measure reflects social services users' experience of access to information and advice about social care in the past year. Information is a core universal service, and a key factor in early intervention and reducing dependency. Improved and/or more information benefits service users by helping them to have greater choice and control over their lives.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS

Data for 2013-14 is based on final data.

3D part 2 - The proportion of carers who find it easy to find information about services, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

No Data Available

Outcome measure 3D part 2 is not calculated for 2013-14, as it is solely based on the Carers survey. This is a biennial survey which took place for the first time in 2012-13. Therefore no data are available for this measure for 2013-14, 2011-12 and 2010-11.

This measure reflects carers' experience of access to information and advice about social care in the past year. Information is a core universal service, and a key factor in early intervention and reducing dependency. Improved and/or more information benefits carers by helping them to have greater choice and control over their lives. This may help to sustain caring relationships through, for example, reduction in stress, improved welfare and physical health improvements. These benefits accrue only where information is accessed that would not otherwise have been accessed, or in those cases where information is obtained more easily.

Sources

Numerator and denominator: CS

4A - The proportion of people who use services who feel safe, expressed as a percentage, 2013-14

This Authority Compared to its CIPFA Comparator Group

Safety is fundamental to the wellbeing and independence of people using social care (and others). There are legal requirements about safety in the context of service quality. There is also a vital role of being safe in the quality of the individual's experience.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS.

Data for 2013-14 is based on final data.

**ASCOF Comparator Report 2013-14
Brighton and Hove (816)**

4B - The proportion of people who use services who say that those services have made them feel safe and secure, expressed as a percentage, 2013-14

Safety is fundamental to the wellbeing and independence of people using social care (and others). There are legal requirements about safety in the context of service quality.

Where council measures are not shown, data are either unavailable or have been suppressed by HSCIC.

Sources

Numerator and denominator: ASCS.

Appendix 1: Data sources, numerators, denominators and NASCIS guidance

The charts and tables featured in this report are listed in the table below, with sources for the numerators and denominators and how to find them in the On-Line Analytical Processor (OLAP) on NASCIS. To access the OLAP, visit the NASCIS website:
<https://nascis.hscic.gov.uk>

To obtain data using the OLAP, where the *total* of a dimension is required, ensure that totals are displayed by selecting the view totals button at top left

For further guidance on using the OLAP, please consult the OLAP user guidance:
<https://nascis.hscic.gov.uk/Portal/OLAPGuidance.pdf>

The annexes to the ASCOF, Carers Survey and Adult Social Care Survey publications provide additional data which are not available via the OLAP. Please consult the HSCIC publications catalogue at <http://www.hscic.gov.uk/searchcatalogue> for the data annexes to the following publications:
